## SUPPLEMENTARY DATA

Supplementary Table 1. Difference in average school grades between index children and their matched controls, by maternal $\mathrm{HbA}_{1 \mathrm{c}}$ level.

| Pregestational $\mathrm{HbA}_{1 \mathrm{c}}$ |  | $1^{\text {st }}$ trimester $\mathrm{HbA}_{1 \mathrm{c}}$ |  | $3{ }^{\text {rd }}$ trimester $\mathrm{HbA}_{1 \mathrm{c}}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $\mathrm{HbA}_{1 \mathrm{c}}$ \% [mmol/mol] | $\beta$ (95\% CI) | $\mathrm{HbA}_{1 \mathrm{c}}$ \% [mmol/mol] | $\beta$ (95\% CI) | $\mathrm{HbA}_{1 \mathrm{c}}$ \% [mmol/mol] | $\beta$ (95\% CI) |
| $<7.0$ [53] | 0.22 (-0.11, 0.56) | $<6.5$ [48] | 0.28 (-0.08, 0.64) | <5.6 [38] | 0.52 (0.09, 0.96) |
| 7.0-7.7 [53-61] | 0.28 (-0.14, 0.69) | 6.5-7.3 [48-56] | 0.13 (-0.20, 0.46) | 5.6-6.6 [38-49] | -0.002 (-0.27, 0.27) |
| 7.8-8.8 [62-73] | -0.28 (-0.68, 0.13) | 7.4-8.3 [57-67] | -0.04 (-0.39, 0.31) | 6.7-7.4 [50-57] | -0.12 (-0.49. 0.25) |
| >8.8 [73] | -0.42 (-0.79, -0.04) | >8.3 [67] | -0.65 (-0.99, -0.31) | >7.4 [57] | -0.58 (-0.92, -0.23) |

$\beta$-values are regression coefficients representing the mean difference in grades between index children and their matched controls, adjusted for gender, maternal age at birth, original grading scale and parental educational status. Confidence intervals are calculated with robust standard errors. Grouping according to maternal $\mathrm{HbA}_{1 \mathrm{c}}$ level are generated using the recommended levels and quartiles dependent on the numbers of mothers with accessible $\mathrm{HbA}_{1 \mathrm{c}}$.

## SUPPLEMENTARY DATA

Supplementary Table 2. $\mathrm{HbA}_{1 \mathrm{c}}$ distribution by parental educational status for the index children.

Pregestational $\mathbf{H b A}_{1 \mathbf{c}}$

| $\mathrm{HbA}_{1 \mathrm{c}} \%$ <br> $[\mathrm{mmol} / \mathrm{mol}]$ | Primary or <br> secondary school | Vocational training, short- <br> cycle higher education | Bachelor degree <br> or higher | Total |
| :--- | :---: | :---: | :---: | :---: |
| $<7.0[53]$ | $12(30.8 \%)$ | $70(26.5 \%)$ | $64(37.2 \%)$ | $146(30.7 \%)$ |
| $7.0-7.7[53-61]$ | $3(7.7 \%)$ | $56(21.2 \%)$ | $46(26.7 \%)$ | $105(22.1 \%)$ |
| $7.8-8.8[62-73]$ | $9(23.1 \%)$ | $54(20.5 \%)$ | $39(22.7 \%)$ | $102(21.5 \%)$ |
| $>8.8[73]$ | $15(38.5 \%)$ | $84(31.8 \%)$ | $23(13.4 \%)$ | $122(25.7 \%)$ |
| Total | $39(100 \%)$ | $264(100 \%)$ | $172(100 \%)$ | $475(100 \%)$ |

$1^{\text {st }}$ trimester $\mathbf{H b A}_{\mathbf{1 c}}$

| $\mathrm{HbA}_{1 \mathrm{c}} \%$ <br> $[\mathrm{mmol} / \mathrm{mol}]$ | Primary or <br> secondary school | Vocational training, short- <br> cycle higher education | Bachelor degree <br> or higher | Total |
