‡ Statistical tests conducted on root – transformed values.

\* Significant difference ( $p < .05$ ; \*\* =  $p < .01$ ) between LR and all HR drivers at this assessment interval. HR groups did not differ from one another at any assessment interval

SUPPLEMENTARY DATA

**Supplementary Table S2.** Feedback about DD.com treatment from completers and non-completers.

Question	Response (0-4)		p
	Completers	Non-completers	
1. How useful was the Tool Kit?	3.53	2.80	.004
2. How good of a method was the internet for delivering this treatment?	3.45	3.03	.07
3. How easy was the web program to use?	3.37	3.03	.03
4. How likely would you be to recommend DD.com to others with similar issues? a	3.29	3.03	.29
5. How satisfied were you with the web program?	2.98	2.49	.02
6. How well were you able to follow through with DD.com's recommendations?	2.97	2.37	.002
7. How well did DD.com work for you?	2.87	2.23	.01
8. How much did DD.com help you to feel more confident in your ability to manage the problem for which you sought help?	2.77	2.23	.02
9. If driving difficulties continue or return, how likely would you be to come back to this web program?	2.71	2.23	.05
10. How much did the web program keep your interest and attention?	2.67	2.03	.01
11. How useful was the Personal Contract?	2.23	1.63	.01
12. How useful were the Daily Progress Notes?	2.03	1.09	.001
13. I didn't have time in my schedule.	0.67	1.46	.001
14. DD.com took too long to do.	0.51	1.03	.001
