

Get the Facts on Diabetes Breakthroughs

Subscribe to American Diabetes Association Journals

DIABETES

The premier journal of basic diabetes research, DIABETES presents the latest laboratory findings from the world's top scientists, plus reviews, editorials, and ADA news. Published monthly with occasional supplements, DIABETES brings you major research studies by Roger Unger, Paul Lacy, Bernard Jeanrenaud, George Eisenbarth and other authorities.

DIABETES CARE

DIABETES CARE presents the latest clinical research from top researchers with analysis and comments on what the new findings mean for you and your patients. A must for practitioners, dietitians, and educators who want to keep up with the latest clinical findings.

DIABETES SPECTRUM

Written for professionals who work day-to-day on the front line of diabetes treatment, DIABETES SPECTRUM translates the latest research into practice. Each issue contains concise, easy-to-follow summaries of the hottest papers in diabetes research, plus tips for treating your patients.

Please start my subscription for the following journals:

- DIABETES (12 issues)** Rate: US/Mexico:\$100 International \$142
- DIABETES CARE(12 issues)** Rate: US/Mexico:\$75 International \$105
- DIABETES SPECTRUM(6 issues)** Rate: US/Mexico:\$30 International \$45

Last week, all your patients with diabetes...

never missed a blood glucose reading...

always ate what they should...

and exercised every day.

Right?

Well, maybe not quite. But now you can help tell the difference, because the **GLUCOMETER® M+** Diabetes Care System lets you track and verify virtually all aspects of your patients' diabetes treatment programs.

A meter and logbook combined, the **GLUCOMETER M+** System tracks blood glucose readings, insulin dosage (and the type of insulin used), changes in diet and exercise, pre- and post-meal blood glucose levels, diabetes-related symptoms and special events.

GLUCOFILM® Test Strip technology assures accurate performance.

Step-by-step prompts on the display make it easy for your patients to use.

In addition, with the **GLUCOFACTS™** + Data Printer or **GLUCOFACTS** + Diabetes Management System software, it's simple to analyze the results. Use the results to educate

and motivate your patients to do their best.

After all, no one's perfect. But the **GLUCOMETER M+** System is perfect for all those patients whose diabetes control should be second to none.

Write us at the address below, or contact your Miles Inc., Diagnostics Division representative for a free demonstration.

Why are more and more doctors recommending **B-D** ULTRA-FINE™?

*“Having diabetes isn’t easy,
but the B-D ULTRA-FINE Insulin Syringe Needle
helps make it a little more comfortable.”*

The ultra-comfortable B-D Insulin Syringe with the ULTRA-FINE™ Needle gives your patients all the quality, accuracy, ease and comfort you have come to expect from B-D. Plus the thinnest syringe needle ever.

The next generation of
injection comfort.
