

# YOU

---

Every organization is made up of individuals. It is the contributions of these individuals, each and everyday that make up the total effort. Over 50 years of effort on the part of the American Diabetes Association has enabled people with diabetes to live healthier, happier, more productive lives. We at LifeScan are proud to have played a part in this effort. These Clinical Practice Recommendations are but one contribution to the field of diabetes care. Your contribution in making these principles a reality for all persons with diabetes is the key.
