

DUALITY OF INTEREST DISCLOSURE FORM FOR AUTHORS OF ARTICLES IN AMERICAN DIABETES ASSOCIATION PUBLICATIONS

I have read the American Diabetes Association's Duality of Interest Policy Statement (found in the January and July issues of *Diabetes* and *Diabetes Care*), and I am indicating below that I have or have not had in the previous 12 months a relevant duality of interest with a company whose products or services are *directly* related to the subject matter of my manuscript. A relevant duality of interest includes employment, membership on the board of directors or any fiduciary relationship, membership on a scientific advisory panel or other standing scientific/medical committee, ownership of stock, receipt of honoraria or consulting fees, or receipt of financial support or grants for research. Company is defined as a for-profit concern engaged in the development, manufacture, or sale of pharmaceutical or biomedical devices or supplies.

Each author must sign this form. (The form may be photocopied if needed.)

For each item checked "yes," please list on a separate sheet of paper the third-party organization with whom you have relevant affiliations or interests. Please provide sufficient information to enable the American Diabetes Association to make an informed decision. Include 1) the nature of the activity that is a relevant duality, 2) the type of financial arrangement, if any, between you and the third party, and 3) a description of the business or purpose of the third party. Please see the following sample disclosures.

SAMPLE DISCLOSURES FOR AUTHORS

Employment

I am employed by Exacta Pharmaceutical Company (6250 Longwood Avenue, Any City, Missouri). My employer manufactures and markets pharmaceuticals related to the treatment of diabetes and its complications.

Board Membership

I am on the board of directors of the Exacta Pharmaceutical Company, a manufacturer of pharmaceuticals related to the treatment of diabetes.

Stock Shareholder

I, or my immediate family, hold stock in the following companies that make products related to the treatment or management of diabetes and its complications:

XYZ Corporation
LMN Corporation

Honoraria or Consulting Fees

I have received honoraria for speaking engagements from the following:

XYZ Corporation
LMN Corporation

I am a paid consultant of the XYZ Corporation.

Grants

The XYZ Corporation is providing funds to my laboratory in order to conduct studies on a new drug to treat diabetic neuropathy.

By answering "yes" in any category, the Association will disclose the relevant duality of interest. The Association will make the disclosure by placing an asterisk by the author's name, and in a footnote describe the nature of the duality of interest, e.g., stock ownership or grant support, and the third party involved.

This form must be returned with your submission. Make additional copies as needed for all authors. Failure to complete the disclosure may delay or prevent publication of your article.

Accu-Chek® Advantage® System More in a meter. For the most out of life.SM

NEW STRIP—30% LESS BLOOD REQUIRED!

You can bet they're not thinking about blood glucose testing. You see, with more of the features that people prefer, the Accu-Chek® Advantage® blood glucose monitoring system makes people more comfortable with testing, so they can get the most out of life.

That's what happens when you continually improve on a meter that's already preferred by 3 out of 4* testers. For example, our latest innovation is a new strip that needs only 9 μ L—30% less blood.

When you add it all up, the more comfortable your patients are with their meters, the more they'll get out of life—which may be the best feature of all.
