DUALITY OF INTEREST DISCLOSURE FORM FOR AUTHORS OF ARTICLES IN AMERICAN DIABETES ASSOCIATION PUBLICATIONS

I have read the American Diabetes Association's Duality of Interest Policy Statement (found in the January and July issues of *Diabetes* and *Diabetes Care*), and I am indicating below that I have or have not had in the previous 12 months a relevant duality of interest with a company whose products or services are *directly* related to the subject matter of my manuscript. A relevant duality of interest includes employment, membership on the board of directors or any fiduciary relationship, membership on a scientific advisory panel or other standing scientific/ medical committee, ownership of stock, receipt of honoraria or consulting fees, or receipt of financial support or grants for research. Company is defined as a for-profit concern engaged in the development, manufacture, or sale of pharmaceutical or biomedical devices or supplies.

Each author must sign this form. (The form may be photocopied if needed.)

Check each area that applies

	Yes	No	Yes	No	Yes	No
Employment	____	____	____	____	____	____
Membership on an advisory panel, standing committee or board of directors	____	____	____	____	____	____
Stock shareholder	____	____	____	____	____	____
Honoraria or consulting fees	____	____	____	____	____	____
Grant/research support	____	____	____	____	____	____
Author (please type or print)	_____		_____		_____	
Signature	_____		_____		_____	
Date	_____		_____		_____	

For each item checked "yes," please list on a separate sheet of paper the third-party organization with whom you have relevant affiliations or interests. Please provide sufficient information to enable the American Diabetes Association to make an informed decision. Include *1*) the nature of the activity that is a relevant duality, *2*) the type of financial arrangement, if any, between you and the third party, and *3*) a description of the business or purpose of the third party. Please see the following sample disclosures.

SAMPLE DISCLOSURES FOR AUTHORS

Employment
I am employed by Exacta Pharmaceutical Company (6250 Longwood Avenue, Any City, Missouri). My employer manufactures and markets pharmaceuticals related to the treatment of diabetes and its complications.

Board Membership
I am on the board of directors of the Exacta Pharmaceutical Company, a manufacturer of pharmaceuticals related to the treatment of diabetes.

Stock Shareholder
I, or my immediate family, hold stock in the following companies that make products related to the treatment or management of diabetes and its complications:

XYZ Corporation
LMN Corporation

Honoraria or Consulting Fees
I have received honoraria for speaking engagements from the following:

XYZ Corporation
LMN Corporation

I am a paid consultant of the XYZ Corporation.

Grants
The XYZ Corporation is providing funds to my laboratory in order to conduct studies on a new drug to treat diabetic neuropathy.

By answering "yes" in any category, the Association will disclose the relevant duality of interest. The Association will make the disclosure by placing an asterisk by the author's name, and in a footnote describe the nature of the duality of interest, e.g., stock ownership or grant support, and the third party involved.

This form must be returned with your submission. Make additional copies as needed for all authors. Failure to complete the disclosure may delay or prevent publication of your article.

COPYRIGHT TRANSFER AND STATEMENT OF ORIGINALITY

We approve the submission of this paper to the American Diabetes Association for publication and have taken due care to ensure the integrity of this work. We confirm that neither the manuscript nor any part of it has been published or is under consideration for publication elsewhere (abstracts excluded). Introducing ADA's Membership Categories

Fulfill Your Information Needs-
The American Diabetes Association offers two low-priced Professional Section membership options that let you receive the publications ***you want***—at a price that fits your budget.

Category I-Entitles you to choose between *Diabetes* or *Diabetes Care*, plus the opportunity to subscribe to additional ADA journals at reduced member prices. This category is recommended for physicians

Category II-Entitles you to *Diabetes Spectrum* and *Diabetes Forecast*, plus the opportunity to subscribe to additional ADA journals at reduced member prices.

Plus Enjoy Additional Member Benefits-
Both membership categories offer a wide range of benefits, including discounts on ADA's Scientific Sessions, Postgraduate Course, and other educational programs; the Professional Section *Membership Directory*; eligibility for ADA research grants and awards; one free Professional Section Council membership; local ADA affiliate membership; the *Professional Section News*; and *Clinical Practice Recommendations* and a discount to ***BRS Colleague.***

In-training Membership Rates-
You are eligible to become a Member-In-Training if you have received your first professional degree within the last five years. This qualifies you for dues at half-price. Also, you will be eligible to subscribe to additional ADA journals at the same reduced rates as other members.

Check These Exclusive Member Benefits

☑ **Your Choice of Publications**

Diabetes—the world's most-cited journal of diabetes research brings you the latest findings from the world's top scientists.

Diabetes Care—the premier journal of clinical diabetes research and treatment. *Diabetes Care* keeps you current with original research reports, news and commentaries, case studies and reviews.

Diabetes Reviews—the comprehensive review articles in ADA's newest journal are a convenient way for the busy clinician to keep up-to-date on what's truly new in research.

Diabetes Spectrum—translates research into practice for nurses, dietitians, and other health-care professionals involved in patient education and counseling.

Clinical Diabetes—for the primary-care provider as well as other diabetes specialists, this newsletter offers articles and abstracts highlighting recent advances in diabetes treatment.

Diabetes Forecast—ADA's magazine for patients and their families features advice on diet, exercise, and other lifestyle changes, plus the latest developments in new technology and research. It is a valuable tool for patient education.

☑ **Professional Section Report**
This quarterly newsletter highlights Professional Section events and other ADA news.

☑ **FREE Council Membership**
Professional Section Councils give you an opportunity to network with members from different specialties who share your interest in a specific area of diabetes research or care. One free Council membership is included with your membership. Additional Council memberships are available for $25 each.

☑ **Membership Directory Listing**
Your link to a valuable network of more *than twelve thousand* diabetes experts. Locate your colleagues by specialty, location, and Professional Section Council membership.

☑ **Eligibility for ADA Research Grants and Awards**
An exclusive benefit. Only members of the Professional Section are eligible to receive ADA grants that support diabetes research. In addition, annual awards are presented to physicians, diabetes educators, and researchers to honor outstanding performance.

☑ **Discounts on ADA Scientific and Medical Programs**
Save on registration for ADA's Scientific Sessions, Postgraduate Course, and ADA-sponsored symposia. ADA meetings are accredited for CME credits.

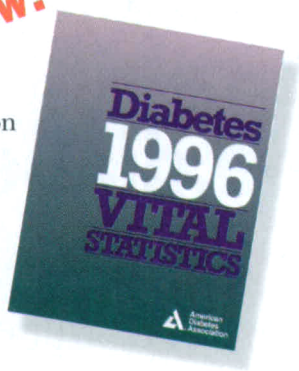
☑ **Local Affiliate Membership**
Your Professional Section membership also entitles you to membership in your local ADA affiliate where you can participate in patient and professional education programs, network with other professionals, and actively participate in shaping the future of ADA.

☑ **Free copy of Clinical Practice Recommendations**
This extensive guide details the current ADA standards of clinical care. The Position Statements in *Clinical Practice Recommendations* are convenient and important resources for all health-care professionals who care for people with diabetes.

The Stats Are In

Diabetes: 1996 Vital Statistics

New!



Did you know that 16 million people in the US have diabetes and that it's the 4th leading cause of death by disease? You'll find this information and much, much more in our most comprehensive edition yet!

Completely revised with the most up-to-date information available, it synthesizes critical information from *Diabetes in America*, published by the National Institutes of Health. You'll find new and expanded information on incidence and prevalence by age and race; diabetes risk factors; complications; diabetes in minorities; use of health care; mortality; and more. It's packed with vital information, highlighted by extensive charts and tables.

Online Services for Readers

http://www.ada.diabetes.org

The American Diabetes Association has introduced new World Wide Web services for members and subscribers. The publications home page offers:

- Tables of contents and a searchable database of abstracts from the current and back issues of *Diabetes* and *Diabetes Care* and selected articles from *Diabetes Care.*
- Tables of contents and selected articles from *Diabetes Spectrum* and *Diabetes Forecast.*
- Full text of *Clinical Practice Recommendations 1997,* the Association's annual compendium of position statements.
- Information about and online ordering for books and other resources for health professionals and people with diabetes.
- Information about and online ordering for membership in the Professional Section of the American Diabetes Association.
- Links to other diabetes sites on the Internet, including newsgroups and World Wide Web pages.
- A professional-to-professional forum for discussing articles in Association publications and other issues in diabetes research and treatment. (This service is available only to Professional Section members of the American Diabetes Association.)

American Diabetes Association's 57th Scientific Sessions

Join your colleagues in Boston for the American Diabetes Association's 57th Scientific Sessions, June 21-24, 1997.

WHAT'S NEW FOR THE 1997 SCIENTIFIC SESSIONS?

THEMES

The Scientific Sessions program has been expanded to include seven theme areas focusing on the latest in basic and clinical research:

- Cell & Molecular Biology of the Islet
- Complications
- Genetics & Epidemiology
- Health Care Delivery and Education
- Immunology, Autoimmunity & Transplantation
- Insulin Action, the Fat Cell & Vesicular Trafficking
- Nutrition/Obesity

30 Symposia
11 Current Issues
19 Workshops
5 Meet-The-Professor
35 Oral Sessions
3 Full Days of Poster Sessions

POSTER PRESENTATIONS

This year, for the first time, all abstracts selected for poster presentation will be available for viewing throughout the Scientific Sessions. You will be able to visit the posters anytime during the Exhibit Hall's open hours.

WORKSHOPS

Seven interactive workshops will be presented multiple times for a total of 19 workshops. Advance registration is not necessary. Tickets will be available on a first-come, first-served basis on the day of the workshop.

COUNCIL INTEREST DISCUSSION SESSIONS

11 Professional Section Councils have elected to conduct a Discussion Session focusing on a topic of interest to the members of the various councils. Check your Council home page for more information on its session **www.diabetes.org**.

WHY SHOULD YOU ATTEND?

- Multiple educational sessions focusing on the latest in clinical and basic research.
- Targeted workshops exploring critical issues led by experts in diabetes.
- A continuous learning environment featuring in-depth sessions and open forums.
- Network, interact, and exchange information with your colleagues from all over the world.

For more detailed program information visit the Association's website at: www.diabetes.org/am97

Two New Resources to Help You Teach Patients

800/ADA-ORDER FAX 770/442-9742

Single-Topic Diabetes Resources

Contains 21 reproducible client handouts covering a variety of diabetes topics, and a professional guide for each sheet. Handouts are interactive, allowing you to tailor the teaching process and content to an individual's needs. Also ideal for diabetes education classes.

New!

Each 2-sided handout follows a standard format. The first section covers self-assessment, rationale for learning about the topic, and learning objectives. Topic-specific information comes next. The last section focuses on goal-setting, monitoring, and problem solving.

The professional guides help you assess the need for and timing of content, and provide you with supplemental information, such as ideas for gathering assessment data; creative ways to increase interactivity; additional learning objectives; and client and professional resources. #CSTDNR

Nonmember: $25.00
Member: $21.00

Includes:

Alcohol • Diabetes: Sugars & Sweets • Shop Smart • Portions: How Much Is Enough? • Diabetes and Low Blood Glucose • Diabetes Medicines (Pills & Insulin) • Diabetes Just During Pregnancy • Exercise and Diabetes: On the Move • Food, Diabetes, and the Older Person • More!

New!

Facilitating Lifestyle Change: A Resource Manual

A great resource to help you effect positive behavioral change in your patients with diabetes. This valuable tool approaches lifestyle change through a four-step model—Assessment, Goal Setting, Intervention, and Evaluation—and features a series of reproducible master forms to facilitate data collection and monitoring.

Manual includes detailed professional information on how best to use each form to benefit the individual patient, including tips for uses in different settings. It also contains a collection of case studies which demonstrate different ways the monitoring forms can be used with various types of clients. And its appendices contain extensive charts, tables and other resources. #CFLCRM

Nonmember: $22.95
Member: $19.95

Contents:

The Lifestyle Change Process • How to Use Lifestyle Change Resources • Case Studies • Anthropometric Data • Biochemical Indices/Laboratory Data • Assessment of Nutrition Knowledge • Assessment of Nutrient Intake •

IN THE REAL WORLD,

DRIED BLOOD AND DIRT

CAN INTERFERE WITH YOUR PATIENTS KNOWING THEIR TRUE BLOOD GLUCOSE VALUE.

THAT'S WHY THERE'S

***Precision* Q·I·D™**

***Precision* Q·I·D™ System**

Dried blood and dirt frequently obscure the optical windows of many blood glucose testing systems. Unfortunately, two out of every three patients rarely, if ever, clean their meter.* Which means your patients may not be getting the true blood glucose values they need for tight control. And they may not even know it.

The ***Precision* Q·I·D™** System uses an advanced biosensor that doesn't require an optical window. Since the ***Precision* Q·I·D™** System requires no cleaning, your patients get accurate blood glucose values in everyday testing. The ***Precision* Q·I·D™** System is clinically proven to eliminate common test errors such as ambient light, dried blood and dirt, and humidity.** Even the interaction of many drugs is compensated for.

***Precision* Q·I·D™** for clinical accuracy in everyday monitoring.

Real Accuracy for the Real World
